AMENDMENT

In response to the Office Action dated June 2, 2003, please amend the above-identified application as follows.

Claims:

1. (Currently Amended) An interface apparatus for performing communications between a remote computer system and a host server over a "connection establishment" type network having an associated "connection-establishment" protocol, said remote computer system having application software for facilitating "always connected" type communications on a network between said computer system and said server, said apparatus comprising:
